UNITED POWER ENGINEERING SDN. BHD

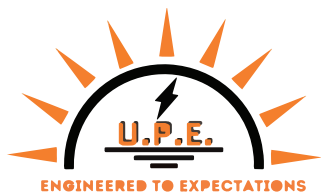

UNITED POWER ENGINEERING SDN BHD known as UPE, though incorporated in the year 2006 has been actively involved in the Electrical and professional sound installation industry for almost (24) years through our sister company **ACOUSTIC SOUND & LITE** which was incorporated in 1994.

From the early 90's till today, UPE, as we refer to ourselves now, has been the preference to commercial places, malls, complexes, hotels, public halls, private clubs, discotheques, restaurants and private residences through its director Mr. N.MAHENDRAN. The team is divided into 2 specializations, electrical and professional sound, headed by a specialist in each team.

The biggest and most commercially successful outlet during that period had entrusted Mahendran and his crew to handle the installation, management of their electrical and sound requirements. The owners and managers of these establishments and even other electrical and sound companies knew that they could count on Mahendran and his crew on projects. Besides projects, part of the team is assigned to carry out electrical maintenance. The team is competent to diagnose faults instantly to ensure the customers do not experience long business down time. Their pagers, initially and cell phones, eventually were never switched off or left unanswered twenty four (24) hours a day all year round. They would position themselves strategically at these outlets so that they could respond to an emergency instantaneously.

OUR SPECIALIZATION

Our vast experience in the electrical and professional sound industry has contributed to us having diverse specialization.

OUR MISSION STATEMENT

The electrical & professional sound industry should always speak with rapturous enthusiasm every time the name UPE is heard.

We take pride in this and we aim to continue to provide excellent service, which has always been our trademark.

We strive to remain competitive and continue to better ourselves while improving on our skills and knowledge with the latest technology.

Our Services

- Electrical wiring (single & three phase).
- Solutions to Lightning and over voltages.
- Maintenance /diagnosing electrical faults.
- Troubleshooting and providing solutions.
- Complete data cabling works.
- CCTV design, wiring and installation.
- Electrical Load analysis & calibration with test reports.
- Air Condition Installation & Maintenance
- Professional sound equipment set up for Bars and Restaurants.
- Installation of Building Paging Systems.
- Repair and Service of professional sound equipment.
- Rental of professional audio equipment for all events.

THE TEAM

THE CORE GROUP

N.Mahendran

Director and design consultant with twenty four (24) years of involvement in the electrical and sound industry who holds a diploma in Electrical Technology, Bachelor degree in Business Administration and Bachelor degree in Information Technology.

K.Visalatchy

Administrator and Finance Manager with twenty two (22) years of involvement in the electrical and sound industry.

A.Mathavan

Technical head with twenty four (24) years behind him in the electrical and sound industry holds a A1 charge man competent certificate. Thevan as he preferred to be called, has acquired knowledge by leaps and bounds and enjoys a great relationship with our clients.

Sri Ram

Chief technician with twenty three (23) years under our tutelage. Sri is the true product of acoustic molding. With his tireless service and incredible desire to learn, he has grown with UPE from strength to strength and is an invaluable commodity to the business.

Elangovan

Instrument Engineer with twenty one (21) years under our tutelage. He is a fine example of true potential and the fact that with the right guidance, anything is possible.

Poovaneswara

Technician with twenty two (22) years under our tutelage. Poovan is the true product of Acoustic molding. From his early days with UPE as an eager novice, he is now a irreplaceable asset to the company and continues to grow in great strides. He possesses a PW2 electrical certificate

Siva Ayavoo

Technician with twenty three (23) years in the electrical field, Siva, an experienced technician with many years of electrical expertise under his belt, joined us in 2001. He possesses a PW4 electrical certificate. He continues to perform with remarkable enthusiasm and fervour.

M. Vinod

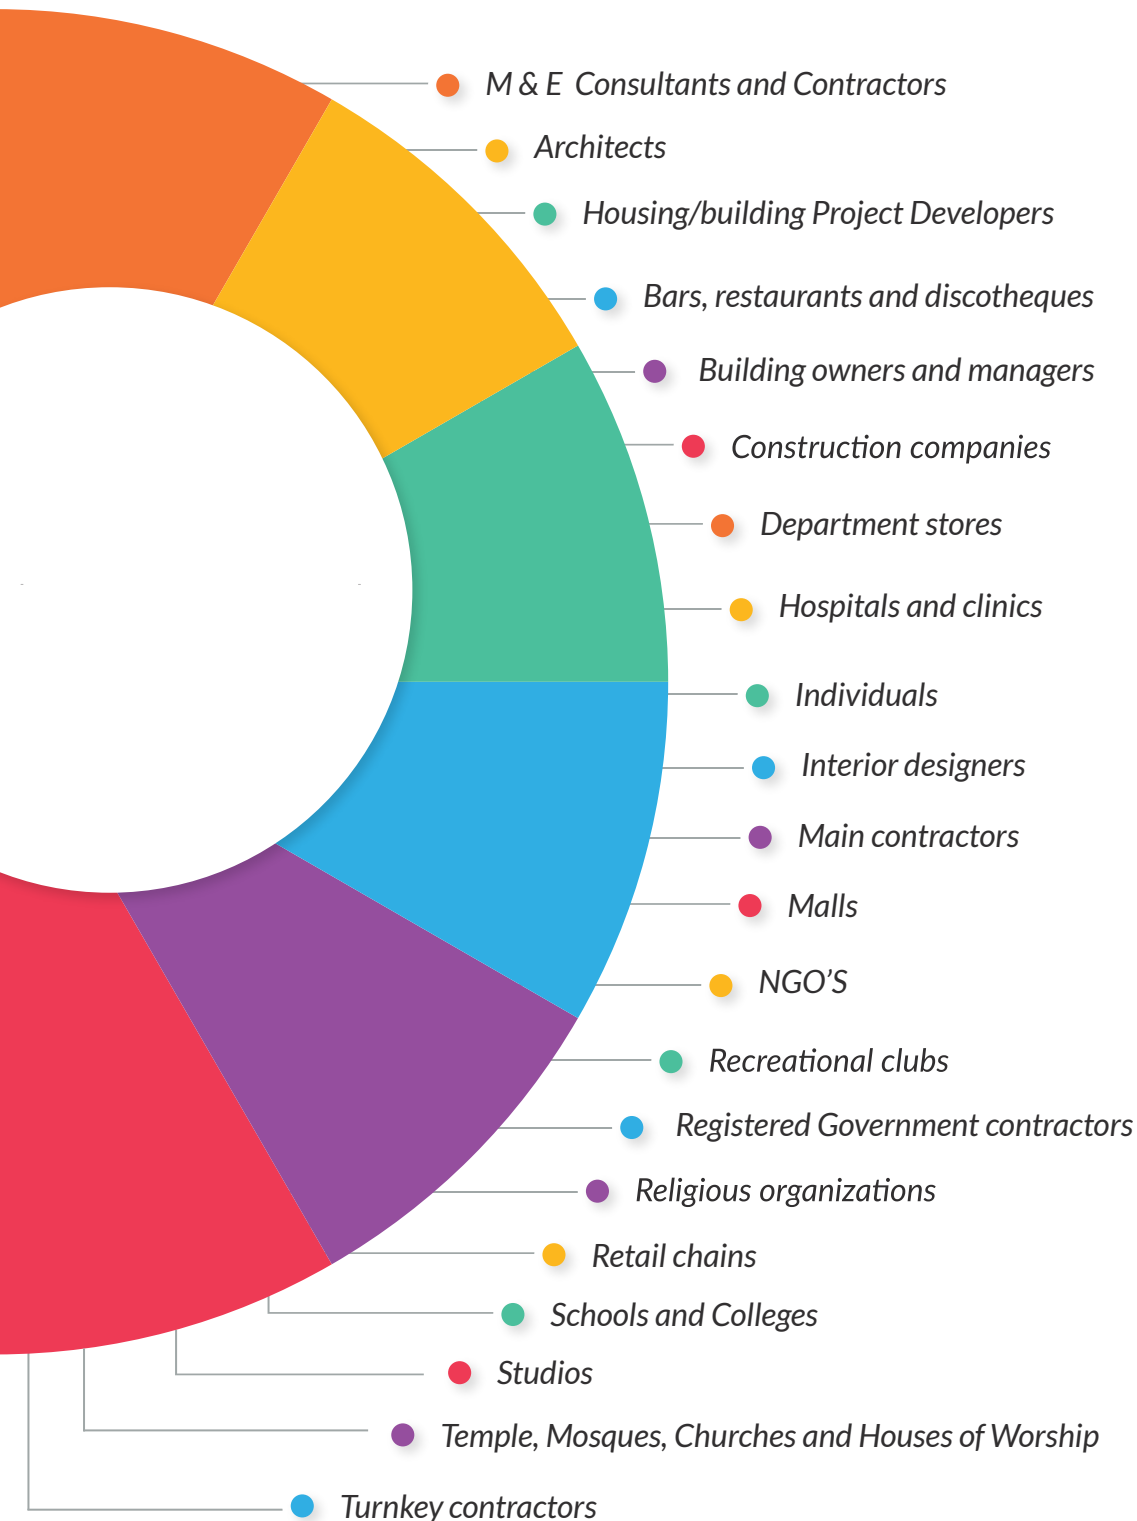

An Electrical Engineer, who just graduated in Electrical & Electronics Engineering from University Tenaga Nasional (UNITEN), joined us in 2018. He shows tremendous eagerness and passion towards the electrical engineering field. He is a fine example of true potential and the fact that with the right guidance, anything can be achieved. His tenacity towards growing the business is an immeasurably valuable resource to UPE

Apartments / High Rise Buildings

1. AC Power System

- 1.1 Power House
- 1.2 Main Switch Board
- 1.3 Sub switch board & Distribution Board (DB)
- 1.4 AC Riser Cable / Bus Bar
- 1.5 Internal Building Lighting & Power Points
- 1.6 Earthing System
- 1.7 Protective Relay Calibration

2. DC Power System

- 2.1 Rectifier
- 2.2 Batteries
- 2.3 DC Riser Cable / Bus Bar
- 2.4 DC Distribution System
- 2.5 Earthing System

3. Generator System

- 3.1 Load Testing
- 3.2 Mechanical System
- 3.3 Electrical System
- 3.4 Normal Servicing 250 Hours
- 3.5 Registration Fees
- 3.6 Diesel Delivery
- 3.7 Protective Relay Calibration

4. Incidental Services

- 4.1 Parameter Lighting
- 4.2 Tunnel Electrical System
- 4.3 Pump House
- 4.4 Water Pumps & Sewerage Pumps
- 4.5 Alarm System

5. Optional Services

- 5.1 Mechanical Service
- 5.2 Electrical L.V And H.T Alternator Servicing
- 5.3 H.T Transformer Servicing, Testing, Checking, Calibrating And Inspecting
- 5.4 Protective Relay Calibration Services
- 5.5 J.B.E Inspection Services
- 5.6 All Types Of Modification In Electrical System Complete With New Wiring Parts, Test And Commissioning
- 5.7 T.P.M Total Predictive Maintenance
- 5.8 Electrical Fault, Solution And Repair On Low Voltage System
- 5.9 Electrical Fault, Solution And Repair On High Voltage System
- 5.10 Mechanical (Engine) Fault Solution And Repair
- 5.11 Earthing And Lightning System
- 5.12 Maintenance Of Radiators

WHY CHOOSE UNITED POWER ENGINEERING?

Our Core Competencies and Specialties

EXPERIENCED

We have over 25 years of experience in delivering best - in - class electrical and electronic services. You will always be in safe hands as our technicians, engineers and management team are extremely well trained and are more than able to handle your needs while ensuring highest quality workmanship using only the highest quality equipments. Most importantly, we are accredited by the Energy Commission (Suruhanjaya Tenaga) and CIDB. So, you are in safe hands!

24 - HOURS AVAILABILITY FOR ELECTRICAL EMERGENCIES

United Power is available 24 Hours, 7 Days a week to attend immediately to any breakdown, power failures, etc. Utmost priority will be given to emergency cases at all times, ensuring minimum downtime. We will be there in your time of need!

ONE - STOP CENTRE FOR YOU

United Power has a vast range of services including:
Electrical Maintenance, Wiring and Repair, Kitchen Equipment Repairs, Air Cond, Chiller and Freezer Repair and Service, PA System Rental and many more...

VALUE FOR MONEY

United Power provides best - in - class electrical service at affordable price. Get the most value for your hard- earned money with United Power Engineering!
